Response Summary

What would make it even better?

- Thought it was a good class. Instructor allowed plenty of class participation & gave personal examples. The coffee was great!
- To fully be effective, the 7-Habits concept would need to be city wide from the management down.
- Require for all employees
- I couldn't think of anything that could make the course any better.
- Materials for instructor that mirrored student text.
- Class was great. Facilitator's manually not in sync with class books on each slide. Ken's energy, tone, and presentation was superb.
